Southeast Texas Antique Dealers Association

<http://southeasttexasada.com>

WHY?

We believe that southeast Texas offers a tremendous opportunity for the growth and development of a very strong antique center such as those in other areas of the state such as Gladewater, Baird, Roundtop, etc.

With the promotion by local antique dealers, the backing of some Beaumont city leaders and the Beaumont Convention & Visitors Bureau, we are going to put southeast Texas on the map as a MAJOR antique center.

With the strength possessed by a large group of area dealers we can get the attention of not only local government officials & business leaders but state-wide attention. All to assist and further promote this area as a **STRONG** antique center.

As a group we will have a large array of benefits that will help all of us make our shops and businesses stronger and more successful.
